

REFILLABLE BODILY FLUID SPILL KITS

BE PREPARED FOR EMERGENCIES WHEREVER YOU ARE

Quickly and safely lock down hazardous bodily fluid spills with refillable bodily fluid spill protection kits. This spill protection kit contains two bodily fluid spill kits in one convenient storage container. When a spill kit is used, simply order a refill rather than reordering a full protection kit.

How to use the Bodily Fluid Spill Protection Kit

1. Open absorbent powder pack and sprinkle enough powder to evenly cover body fluid incident.
2. Using scoop and scraper (and/or disposable towels), pick up solidified material and put into the red biohazard bag.
3. Thoroughly spray the approved cleaner/disinfectant over the spill area and allow for at least a 10 minute contact time.
4. Use disposable wiping cloth to wipe up all residual disinfectant.
5. Place used personal protective equipment (PPE) and waste into the red biohazard bag and then tie shut.
